DETAILED ACTION

Reasons For Allowance

1. Claims 1-34 are allowed.
2. The following is an Examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claimed invention of database searching as claimed by Applicant. Specifically, claims 1, 8, 14, 20, 22, 24, and 26 disclose automatically determining a filter search specification associated with at least one category supplied by a user.

The closest prior art of Wyman (U.S. Patent Number 5,260,999; dated 09 November 1993; class 705; subclass 059) teaches the use of filters in license management but fails to teach or suggest automatically determining a filter search specification associated with at least one category supplied by a user. Only to the extent that this feature is not found in the prior art cited by Examiner, the present case (claims 1-34) is held allowable over the cited prior art. The 101 rejection is removed from the case because Applicant amends the "records" in his claims to be "business" records. Examiner interprets this added word to mean "discrete dollar values" in accordance with the holding in *State Street Bank*. Only to the extent that the invention is processing such "statutory" data is the present case (claims 1-34) held to be statutory and allowable over the prior art.

Art Unit: 2121

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
